

# 100% CUSTOM ORTHOTIC MEDICAL BLACK

- ✓ Extremely durable (dry 400,000 Martindale) and breathable topcoat with antibacterial Silver Ion finishing
- ✓ Comfortable feel with high-quality shock absorption + PORON® XRD™ inserts (heel & ball of foot)
- ✓ Patented custom moulded balance plate for dynamic but sturdy arch support
- ✓ High-strength bottom surface

Medical Black is a standard width Custom Orthotic that fits a wide range of feet. The leather-like surface material with its subtle colouring and non-slip topcoat makes it an excellent choice for both casual and sports footwear.

This orthotic is designed for those who require the highest level of support and cushioning. Medical Black features a stiffer balance plate to counter more challenging foot malpositions and maintain feet in proper alignment whilst still allowing the foot's natural movement. PORON® XRD™ inserts in the heel and ball of foot absorb the impact of each step, reducing negative effects throughout the body.
